SUMMARY

Final-year B.Tech Computer Science student specializing in Data Science and Machine Learning, with hands-on experience in Python, SQL, and Power BI. Skilled at turning raw datasets into actionable insights through predictive modeling and interactive dashboards, backed by 6 AWS cloud and ML certifications.

TECHNICAL SKILLS

Programming Languages: Python, C++, SQL

Cloud and Visualization: Power BI, Tableau, Snowflake

Libraries & Tools: NumPy, Pandas, Matplotlib, Scikit-learn, Gradio

PROJECTS

Netflix Analytics Dashboard | GitHub

Business Intelligence Project

Power BI, DAX, Power Query

Designed interactive Power BI dashboard analyzing **8,800+ titles** across **198 countries** and **515 genres**

Cleaned **4,300+ missing values** across director, cast, and country fields using Power Query

Engineered **5 DAX measures** and **3 dynamic slicers**, surfacing insights like U.S. leading with **3,210 titles**

Supermart Grocery Sales Analytics | GitHub

Data Science Project

Python, Gradio, ML

Built Gradio app forecasting sales on **9,994 records** across **7 categories** and **24 cities** using Random Forest

Engineered **4 features** from category, region, discount, and order-date fields to drive prediction accuracy

Deployed real-time Gradio interface for instant sales predictions and profit/discount analytics

Netflix Data Analysis & Recommendation Dashboard | GitHub

Data Science Project

Python, Scikit-learn, Gradio

Developed genre-weighted, content-based recommender using TF-IDF vectorization on **8,790 titles**

Trained Random Forest classifier predicting content success (Low/Med/High) using **3 key features**: genre, rating, and duration

Implemented interactive Gradio dashboard spanning **5 analysis modules**: content, genre, country, director-level, and movie lookup

EXPERIENCE

Data Analyst Intern

Feb 2026

Owl AI (Overload Ware Labs AI)

Remote

Performed data cleaning, preprocessing, and exploratory data analysis using Python across **3 real-world datasets**

Identified trends and patterns through EDA to support data-driven decision-making

Generated and delivered analytical reports independently within assigned project deadlines

EDUCATION

VIT Bhopal University

Bhopal, MP

B.Tech in Computer Science

Aug 2023 – Present

CERTIFICATIONS

AWS Academy Graduate - Cloud Foundations (May 2025)

AWS Academy Graduate - Machine Learning for Natural Language Processing (July 2025)
